Safety Metallic Ladders For Buildings, and a perfect Lightning Rod Combined.

THE subscribers having the agency of a new invention, Washburn, Holland & Co's Patent Metallic Ladders and Lightning Conductor, for Bangor and vicinity, are now prepared to attach them to Factories, Dwelling Houses, and Buildings of every description, in the most thorough and workmanlike manner. These Ladders are strong and durable, and with the improved Lightning Conductor attached, afford a most perfect protection from the ravages of fire, either from lightning without or accident within. They come recommended by a strong array of names of those who have given them a trial, among which is that of Prof Silliman, of Yale College, which is good evidence that this is a good invention, and also forming a perfect lightning conductor. On the ground of economy they are just the thing, costing but 25 cents a foot without the rods, and 20cts with the rods, giving you a good permanent ladder, that is always on the back of your house, and of course not liable to be borrowed or lent. Those interested will please call and see them attached to a model of a building, and the manner of connecting the rods.

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS ASTHMA, BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the clear oil, the following case, by Prof. Stone, is sufficient to convince the most skeptical. The young lady was twenty-four years of age.

"Her disease was one of unmixed phthisic, which had been expected to terminate in the course of a few months, fatally. The upper part of both her lungs were filled with tubercles; and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."

CAUTION.—On account of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only receipt in the United States for combining the pure Oil with lime in a proper manner. Therefore as you value your health, purchase none except that manufactured by

Bank Note Protection.

A new plan to prevent Fraud by the Alteration of Bank Notes from low to higher denominations.

The Notes are divided into two classes.

CLASS FIRST, embraces the denominations of *one two, three four* and *five dollars*. These are distinguished by strips at the *right* ends of the notes, composed of *geometric lathe work*, and running towards the centre, the number of strips corresponding with the amounts of the notes. Thus a one strip for one dollar, two strips for two dollars, and so on; and upon the centre of these strips a large figure, readily seen, designates the denomination of each note. In this class of notes, there are no borders on the *left* ends—which are occupied by vignettes and other work. The President's name will be placed under and near the *right* end strip work on all notes of this class, and that of the Register, or some other name above it, thus protecting the strip work from alteration—no place being left for adding another strip, either above or below the signatures.

CLASS SECOND, embraces the denominations of *ten, twenty fifty, one hundred* and *five hundred dollars*. On these the whole arrangement is reversed. The strips of lathe work, (different from above used upon the other class of notes) commence at the *left* ends, and run towards the centre, the vignettes and other work being upon the *right*. On this class the Cashier's name is placed under the strip work, and that of the Register directly over it, their names being separated by one strip on a ten dollar note, by two on a twenty, three on a fifty, four on a hundred and by five strips upon a five hundred dollar note, *presenting a perfect contrast between the two classes of notes*.

Any person acquainted with the plan, could not be deceived by any alteration of any one of these notes in either class, from one denomination to another. The plan is a simple one, and is comprehended almost at a glance, from an examination of the notes; for although so many lines are required to describe it in words the pictorial description is very short, and easily understood and remembered. The inventor, JAMES ATWATER, Esq., of New Haven, Conn., has secured his invention by caveat, entered at the Patent Office at Washington, and has made an arrangement with DANFORTH, WRIGHT & CO, exclusively, for its use upon Bank Notes.

Besides the protection against the *alteration* of the denominations of Bank Notes afforded to banks and the public by this plan, a very great security against *counterfeiting* is also afforded, by the free use of the *geometric lathe work*, of which the borders are composed, and which cannot be successfully imitated, either with any other *machine*, or with the *graver*.

Abdominal Supports of five or six different kinds, and such as Hull's, Chapin's Spinal, Cutter's, Fitch's, Ingalls's, &c. &c.

☞ Ladies waited upon by Mrs Caroline D. Foster at the above place.

The following certificate from Dr John C Warren of Boston, was given 16 years since, but will last forever.

BOSTON, January 7, 1835

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F Foster, to supply the deficiency occasioned by the death of Mr Beath. After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN, M D, Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary:

The undersigned having occasion to employ Mr. J. Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, surpass (as far as our experience goes,) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr J C Warren, as a sufficient guaranty for all who may favor Mr F, that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation. PATENT SELF HEATING

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements; but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides, being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cents worth of dry charcoal supplies fuel for a whole days' constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

Card of the Passengers of the Gold Hunter.

We publish below the card of a large number of the passengers of the Gold Hunter, after her arrival in California. They speak in very high terms of the captain, and of his efforts to make the voyage agreeable. These testimonials are valuable because of the slanders written home by one or two of the most infamous ruffian rascals, who were passengers, that ever walked the earth. One of these demons in human shape, in order to carry out, by anarchy, his purpose of brutalizing the passengers, a few days before the Gold Hunter arrived at San Francisco, entered Captain Nickerson's state room, and struck a heavy blow upon his head, fracturing his skull, and inflicting a dirk stab in the forehead, and another in the arm. These wounds confined the captain to his bed for some time, caused delirium, and threatened his life. At the last accounts, the skull had been raised from pressing upon the brain, and he was rapidly recovering.

The guilty party fled before a warrant for his arrest could be served.

We make these statements as explanatory of the card to which we have referred, and which we insert.

Aside from the annoyances occasioned by the low brutality and rascality of one infamous'y bad man, who was a passenger, and the influence he exerted over two or three others, the passage out would have been a very agreeable one.

Letters from reliable sources speak in high terms of the conduct of the female passengers, under the terrible annoyance arising from the conduct of the rascals to whom we have referred. This is highly honorable to them, although as already intimated, it has not silenced the slanders of those who labored to make them victims.

CARD

To the Editor of the Whig and Courier

Feeling it a duty we owe to Captain J W Nickerson, permit us through the columns of your paper to speak a few words to our friends and the public. You will remember our leave-taking, (to us at least,) so memorable. You probably have heard, from time to time, of our welfare, and now of the dark closing tragedy! It is concerning this, chiefly, that we feel it our duty to speak, though we cannot do so but with feelings of the deepest shame and sorrow. Sorrow on account of the affliction in itself, for his own sake, for his friends' sake, and also for our own sakes, and shame that even *one* should be found among us who should reward kindness with such base, iniquitous ingratitude. Throughout all our wearisome journey, Captain Nickerson has been ever ready, with a helping hand and word of cheer for the sick, and though by the number of passengers and some other circumstances of our condition, the time spent on board has not been so pleasant and profitable, perhaps, as it might otherwise have been; he has striven by every means in his power, to make our passage an agreeable one. As a navigator he possesses our utmost confidence; as a man our highest esteem, and now, as he suffers for his reward, the pain of the assassin's iron and dagger, we feel it our duty to express to him and his friends, our heartfelt sympathy, and to raise our voice in his vindication. That he may speedily recover his soundness of body and mind, have a prosperous voyage home to his friends and family; and furthermore, a prosperous and happy voyage over life's troubled sea, is our sincere prayer.

To the other officers of the barque, Mr Hobart and Mr Potter, we would also tender our thanks and kind wishes, for their gentlemanly deportment towards us, and the many kindnesses we have received at their hands.

On the 26th the City Marshal found liquor in the shop of Ann Quinn. She was adjudged guilty by Judge Hodgdon and fined $20, and costs $2,81. Paid.

Corne ius Mahony's shop on Washington street was searched, liquor found, adjudged guilty and fined $20 and costs $2,81. Appealed.

On Friday the Marshal seized twenty one barrels of liquor in a store. No owner has yet appeared and it is ordered to be advertised.

The Westminster Review.

We have received from Messrs Leonard Scott & Co that excellent reprint of this large English Review, for April. Its leading article is "British Philanthropy and Jamaica Distress." There are other notable articles, particularly "French writers and French policy, also "Educational Institutions of the United States." The number is a rich one.

The City Marshal on Thursday, visited the Alhambra on Exchange-street, but while he was getting in the occupants were engaged in pouring out the liquor upon a shed. The quantity was large enough to run down the gutter and into the street.

Better to have the liquor in the gutter than to have the liquor place men there.

Our neighbors, Messrs. Richards & Perkins, have an article very healthful and palatable for warm weather, which appears to be now coming along with rapid strides, which they advertise under the name of "Ambrosial Mead," which makes a very cooling, grateful and healthful temperance beverage.

We return our thanks to Mr. Cushing the attentive Clerk of the Daniel Webster for Boston papers received on Saturday in advance of the mail.

After the first of June next, Spanish quarters will depreciate, "by authority," twenty per cent in value.

Steamboat Travelling.

MR. SLEEPER—In a recent number of the Boston Journal, you very appropriately express the sentiment that hereafter more care of their passengers will be required of the owners of steamers, and refer to the Independence, Ocean Wave, and others. Permit me to suggest that a greater amount of care on the part of the travelling public, in selecting the mode of conveyance, will assist in preventing disasters.—Without intending to reflect on other lines, I may safely recommend the means offered by the Pacific Mail Steamship Company, on the Panama and San Francisco route. The very best ships, conducted by a corps of efficient and thoroughly experienced officers, and abundantly furnished with every means of health and comfort, running regularly four times monthly, and managed under a policy as discreet as it is liberal, would invite the favor of all about to undertake the voyage. Add to these considerations, that during the whole period of their existence, from the commencement of the California Travel to the present time, but one of their ships has been lost, (an event involving the loss of not a single life,) and you have a guaranty of security unsurpassed by the history of any steamship company ever formed!

The writer is at once familiar with the line, and totally disinterested. VIATOR.

The above is from one who has had considerable experience in travelling between New York and San Francisco on the Mail line. We have heard others speak in the highest terms of the steamers of the New York and California Steamship Co—the *Winfield Scott*, the *Cortes*, the *Union*, and the *United States*,—four as good steamers as float, well managed and fast.—The agents in New York are Messrs. DAVIS, BROOKS & Co., and in this city CHARLES COOPER, & Co.

To the Editor of the Whig and Courier

The good people of Bangor are hereby informed, that garden fences and gates are no protection against cows. At an early hour this morning, a woman of my family, who is habitually an early riser, hearing the garden gate open, looked out of the window, and saw a woman endeavoring to drive a cow into the yard. She had pulled up a stake, which had been placed behind the gate to stop it when partly open, as a safeguard against *four* legged cows. We have a police court, which should always be applied to in such cases, though not a few of our citizens would resort to powder and lead, so far as the cow was concerned.

High street, May 27. H

The above is a strong case. There are other cases where the act may seem less guilty, but the principle is the same; we mean where cows and swine are taught to enter inclosures in the night time, and to depart in the early morning. Shooting the hogs has been found very efficacious. P D.

To "DIDIGO." I learned the facts you mention, but too late. I hastened to the printing office to spare your feelings, but "the birds" were already in type. However, I remembered some twenty years ago, when I with my school mates, were guilty of that same "boyish brutality," election week, and it occurred to me that at least the words might pass as the late expiation of a burdened conscience, even if there were no birds in this region in danger of being sacrificed to what is, happily, an "obsolete idea." DIDIGO.

The new stamped envelopes are expected to be ready for use by the first of June but their distribution will not probably commence before the first of July. The price is to be $3, 20 per hundred—$3 for the stamps and 20 cents for the envelopes.

ROBERT G SCOTT, whose letter to the Presidential aspirants killed off all who answered them and left an opening for Gen Pierce, who under the advice of Gen. Cushing refused to reply, is rewarded with the profitable consulship at Rio Janeiro.

The City Marshal turned out upon the ground, on Saturday some eighty gallons of gin and some fifteen gallons of brandy, the same having been condemned, under the law by Judge Hodsdon.

We learn that the appointment of Dr Jonathan Huse as Deputy Collector at Camden, though opposed for some time, has at length been approved by the Secretary of the Treasury.

Hon F O J Smith was thrown from a wagon in Waterville, on Tuesday, and dislocated his shoulder.

Mexican Items.

NEW ORLEANS, May 26

Dates from the city of Mexico have been received to the 18th. Santa Anna has issued many other arbitrary decrees, suspending legislative authority of all kinds, disarming private citizens, &c.

Santa Anna has ordered the remains of all the soldiers who fell in the American war to be disinterred and placed in suitable sepulchres.

The names of Generals Vasquez and Leon killed in the war, are to be inscribed on the banners of the army, and considered as promoted Generals of Division before their death.

A levee was held in the Capitol of all the officers and soldiers wounded in the Mexican war, called the "levee of the mutilated." A feeling address was made by Santa Anna, who said that their country would never forget them.

No matter what the animal it will get out in the air if it can. Quadruped, biped, centipede are equally solicitous. The alligators, the snake the pumpkins and all the other "big guns" of creation are beginning to make a stir in the world and ere long will be entirely on the move. In fact no one can afford to be buried while there is such a tramp of life over head. It is impossible to rest tranquilly. The best thing we can do is to put on a pair of thin shoes and join in the cavalcade of moving things, and with them seek the open country the grassy knoll the leafy arbor and the cool, delicious breeze.

"Ghosts be hanged!" said Tom Hood. "No such thing in nature. All laid long before the wood pavement. What should they come for? The colliers *may rise* for higher wages, and the Chartist may rise for his health, and bread may rise; and the rising generation may rise; but that the dead should rise only to make one's hair rise, is more than I can believe. Suppose yourself a ghost. Well, if you come out of your grave to serve a friend, how are you to help him? And if it's an enemy, what's the use of appearing to him if you can't pitch into him?"

"GO MARRY."—The most beautiful flowers are those which are double, such as double pinks, double roses and double dahlias. What an argument is this against the chilling deformity of single bedsteads! "Go, marry," is written on everything, beautiful that the eye rests upon—beginning with birds of paradise, and leaving off with apple-blossoms.

H G. Farrell's Genuine Arabian Liniment

is a most extraordinary medicine, the truth of which is placed beyond doubt by the vast sales of the article and the many cures being daily performed by it, which previously had resisted all other medicines and the skill of the best physicians in the world. It is composed of balsams, extracts and gums peculiar to Arabia—possessing, in a concentrated form all their stimulating, anodyne, penetrating, unctuous, and revulsive properties, and the same which ages ago were used by the Sons of the Desert, with such miraculous success, in curing the diseases of both man and beast.

Read the following remarkable cure which should of itself place H G FARRELL'S ARABIAN LINIMENT far beyond any similar remedy.

Mr H G Farrell—Dear Sir. Actuated by a sense of gratefulness, I submit the following as an instance of the utility of your great medicine. My child, three years old, was suddenly attacked with a terrible disease which in less than six hours prostrated it to total helplessness. The limbs became so rigid that not a joint could be bent, the flesh turned black and cold, and entirely deprived of feeling, the eyes fixed, partially closed and altogether blind following this was deafness to all sounds, the spine became contracted and so curved that when lying on its back only the head and heels only touched. Indeed, the child presented every appearance of being dead. Immediately on the attack the family physician was called in, and for three weeks he labored to restore it to feeling, but all in vain, although it was blistered a dozen times, and various rubefacient liniments applied. A consultation of physicians was then held, but to no purpose, the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctor then told me he could do nothing more. We then commenced applying your Liniment freely over the entire length of the spine, and you may imagine a parent's joy, when after a few applications, returning animation was apparent, and it rapidly recovered with the exception of sight which did not become perfect for near a month. The child is now healthy and robust, as can be. Five other cases of the same kind occurred previously in my neighborhood, all of which died when there is no doubt if your Liniment had been used they would have recovered.

LOOK OUT FOR COUNTERFEITS

The public are cautioned against another counterfeit which has lately made its appearance called W B Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H G Farrell, sole inventor and proprietor, and wholesale druggist, No 17 Main Street, Peoria, Illinois to whom all applications for Agencies must be addressed. Be sure you get it with the letters H G before Farrell's, thus—H G FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Superior Shoulder Braces.

MANUFACTURED by Marsh & Co 212 Maiden Lane, New York. The object of this Brace is to correct habitual stooping round and crooked shoulders, weak back and chest and preserve that erect and graceful position indispensable to health and beauty, expanding the chest, giving the lungs a free and healthy action. It is adapted to men, women and children, of all ages occupations and conditions, it is light, yet perfectly elastic and warranted to retain its elasticity and is beautifully adapted to the object designed. The shoulder straps are so constructed as to give the main bearing on the point of the shoulder, are stayed so as not to wrinkle up and form a string—are padded where they come under the arm there by preventing that cutting under the arm so much complained of in other Shoulder Braces. These Braces are not put together by machinery which are sure to rip, but are stitched together in the most substantial manner by hand.

Also, Marsh's Self Adjusting Trusses, which have effected more radical cures than all others combined.

New Method of Cure!

B. F. HATCH, M. D,

Professor of Theory and Practice, Obstetrics, Diseases of Women and Children, in the New England College of Physicians and Surgeons,

Has discovered a new method by which he is able to treat

All Diseases peculiar to Females,

—ALSO—

GENERAL WEAKNESS,

with universal success, and a cure can be accomplished in much less time than any heretofore produced by any physician in New England.

Dr H's method has never been equalled in point of PRACTICABILITY or SUCCESS, and how ever long standing the case may be or fruitless efforts may have proved the patient may confidently expect relief. Hundreds of cases might be referred to, which would amply justify the above assertion.

Consumption, Dyspepsia,

Diseases of the Spine Liver Heart Kidneys Larnyx Bowels Blood Skin all Nervous Difficulties Scrofula and Scrofulous Swellings Fever Sores Hip Diseases &c &c

are relieved in an incredible short space of time and with remedies which are in perfect harmony with the constitution.

This great improvement in the cure of disease establishes a new era in medical science and all who are in any way afflicted should avail themselves of its advantages.

We do not feel disposed to publish a long list of cures, for no man no matter how illy prepared for the profession but what can boast of effecting cures and procure certificates of irresponsible individuals but will give the opinions of editors who are conspicuous before the public.

Prof J R Buchanan in his Journal of Man says Dr Hatch is a bold but liberal reformer. He is a graduate of the Eclectic Medical Institution and is one of the most successful practitioners.

Dr H is one of the most intelligent Physicians and deserves liberal encouragement for his skill and rare disinterestedness.—*Carpet Freeman*

The general reading of a work such as Dr H has published would result in much public good and we trust it may meet with a universal circulation.—*Boston Daily Bee*

Dr Hatch is truly one of the most skillful Physicians of Boston.—*Prof A W Daniels M D*

PROFESSOR ALEX C BARRY'S

TRICOPHEROUS, or Medicated Compound,

FOR beautifying promoting and preserving the Hair curing cuts bruises burns stings rheumatism and all irritations of the skin A preparation the sale of which amounts to one million of bottles annually would seem to need no advertisement, but as the thousands who purchase use and approve of it have probably no idea of the enormous extent of the business done by Professor Barry he gives herewith a plain statement of facts derived from his books and with them endeavors his earnest and hearty thanks to his innumerable patrons

Professor Barry's accounts of sales for the year 1852 show that during that year about 910 000 bottles of his Tricopherous were disposed of and that the cash product of this immense sale was nearly $1 000 000

This plain unvarnished tale is a better commentary on the value of the article than any thing its inventor could say If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts bruises burns skin diseases &c—it would not, of course be so universally in demand The wealthy portion of the public would buy it at any price but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits

Sold in large bottles [price 25 cents] at wholesale and retail at the manufactory and depot 137 Broadway New York and by the principal merchants and druggists throughout the United States and Canada Mexico, West Indies Great Britain, France &c

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINANCE OR NOCTURNAL EMISSIONS, &c The astonishing success which has attended this valuable medicine, for *Loss of Muscular Energy, Physical Lassitude*, and *General Prostration*, or any of the consequences of youthful indiscretion, or indulgence of the passions in riper years, renders it the most valuable preparation ever delivered to the afflicted as a remedy for the above complaints it stands unrivalled and alone There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London, Paris and the chief cities of Europe, as well as by eminent Physicians in this country It is the only infallible remedy for NERVOUS HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES It will restore all nervous affections DEPRESSION EXCITEMENT, incapacity to study or business loss of MEMORY CONFUSION, thoughts of Self Destruction, fear of insanity, &c. It will restore the appetite restore the health of those who have destroyed it by Sensual Excesses or evil practices It has been tried by some that these disorders, emissions &c., were incurable This however is not the fact

DR. MORSE'S INVIGORATING CORDIAL has, and is constantly curing these complaints—restoring the mental and bodily incapacity of the unfortunate sufferer as the following testimony of the names received will conclusively show

Dr Woodward, of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial, thus — It gives me pleasure to inform you that one of my patients white in Boston, procured some of your Cordial He tells me that he has not had a single nocturnal emission since commencing taking it, while before he had two or, three a week When he applied to me says Dr W, I thought it hardly possible for him ever to regain his full strength I prescribed the usual medicine used in all such cases in the hospital, but they had no effect In the meantime he purchased some of your Cordial which has effected a cure I am sure no other medicine would I shall ever recommend it whenever an opportunity occurs"

The nature of this maladies relieved by this Cordial are generally such as to leave the publication of certificates of course out of the question and this project could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not procured only obtained, but is firmly based upon its positive and apparently mira culous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have had them but for this extraordinary preparation And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS

have not in a single instance that has been authenticated given their sanction to any other preparation for the above complaints In fact, in many virulent and desperate cases where radical cures after patients had been abandoned and their condition pronounced hopeless by medical practitioners of high professional character

THE COMMON EXPRESSION

Of those who have used this Extract is—"I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarsaparillas) without deriving any benefit I had almost given up all hope of ever being cured when I purchased some of your Cordial I had no faith whatever of its benefiting me—but it has I feel stronger I have had no eruption since, although it is now three weeks I am satisfied the half a dozen bottle I took will cure me.

Another says—I had consulted several distinguished physicians Some said I could not be cured others prescribed this thing and that but I found no relief until I procured some of your Cordial I must say it completely cured me"

Another says—"I was surprised at the effect your Cordial had Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering

CAUTION—Ask for Dr Morse's Cordial and take no other, as there are worthless imitations which its unrivalled excellence fame and popularity have brought into the market It will be that the most delicate female build good Beware of all other Cordials, &c., they only this)
